

MonoBehaviour

```
classDiagram
    class MonoBehaviour
    class PhotonChatUtilityScriptsOnStartDelete["Photon.Chat.UtilityScripts.OnStartDelete"]
    PhotonChatUtilityScriptsOnStartDelete --|> MonoBehaviour
```

The diagram illustrates a class hierarchy. At the top is the 'MonoBehaviour' class, represented by a white box with three horizontal sections. Below it is the 'Photon.Chat.UtilityScripts.OnStartDelete' class, represented by a grey box with three horizontal sections. A blue arrow with an open triangular head points from the top section of the 'Photon.Chat.UtilityScripts.OnStartDelete' class to the bottom section of the 'MonoBehaviour' class, indicating that 'Photon.Chat.UtilityScripts.OnStartDelete' inherits from 'MonoBehaviour'.

Photon.Chat.UtilityScripts.
OnStartDelete
