

MonoBehaviour

```
classDiagram
    class MonoBehaviour
    class AutoDestroyWrongNetLib["emotitron.Utilities.Networking.AutoDestroyWrongNetLib"] {
        + netLib
    }
    MonoBehaviour <|-- AutoDestroyWrongNetLib
```

The diagram illustrates a class hierarchy. At the top is the 'MonoBehaviour' class, represented by a white box with a black border and two empty internal compartments. Below it is the 'emotitron.Utilities.Networking.AutoDestroyWrongNetLib' class, represented by a grey box with a black border and two internal compartments. The top compartment of the grey box contains the text 'emotitron.Utilities.Networking.AutoDestroyWrongNetLib', and the middle compartment contains '+ netLib'. A blue arrow with an open triangular head points from the top of the grey box to the bottom of the white box, indicating that 'emotitron.Utilities.Networking.AutoDestroyWrongNetLib' inherits from 'MonoBehaviour'.

emotitron.Utilities.Networking.
AutoDestroyWrongNetLib
