

MonoBehaviour

```
classDiagram
    class MonoBehaviour
    class CatTaskScript {
        + foodButt
        + buttonTiming
        + deliveryArea
        + catTask
        + TaskComplete
        + GetFood()
        + DeliverFood()
    }
    MonoBehaviour <|-- CatTaskScript
```

The diagram illustrates a class hierarchy. At the top is the 'MonoBehaviour' class, represented by a rectangle with three horizontal compartments. The top compartment contains the class name. Below it are two empty compartments. A blue arrow with an open triangular head points from the 'CatTaskScript' class below to the 'MonoBehaviour' class, indicating inheritance.

CatTaskScript

+ foodButt  
+ buttonTiming  
+ deliveryArea  
+ catTask  
+ TaskComplete

+ GetFood()  
+ DeliverFood()
