The diagram illustrates a class hierarchy. At the top is the 'PropertyAttribute' class, represented by a rectangle with three horizontal compartments. The top compartment contains the class name, while the two lower compartments are empty. Below it is the 'Photon.Utilities.VersaMaskAttribute' class, represented by a rectangle with three horizontal compartments. The top compartment contains the class name, the middle compartment contains two public methods: '+ definesZero' and '+ castTo', and the bottom compartment contains one public method: '+ VersaMaskAttribute()'. A blue arrow with an open triangular head points from the top of the 'Photon.Utilities.VersaMaskAttribute' class to the bottom of the 'PropertyAttribute' class, indicating that 'Photon.Utilities.VersaMaskAttribute' inherits from 'PropertyAttribute'.
