

ScriptableRendererFeature

```
classDiagram
    class ScriptableRendererFeature
    class FlatKitFlatKitOutline["FlatKit.FlatKitOutline"] {
        + settings
        + Create()
        + AddRenderPasses()
    }
    FlatKitFlatKitOutline --|> ScriptableRendererFeature
```

The diagram illustrates a class hierarchy. At the top is the 'ScriptableRendererFeature' class, represented by a white box with three horizontal sections. Below it is the 'FlatKit.FlatKitOutline' class, represented by a grey box with three horizontal sections. A blue arrow with an open triangular head points from the 'FlatKit.FlatKitOutline' class to the 'ScriptableRendererFeature' class, indicating that 'FlatKit.FlatKitOutline' inherits from 'ScriptableRendererFeature'.
