

Photon.Chat.Demo.ChatGui.
OnApplicationQuit

Photon.Chat.Demo.ChatGui.
OnDestroy

Photon.Chat.ChatClient.Disconnect

```
graph LR; A[Photon.Chat.Demo.ChatGui.OnApplicationQuit] --> C[Photon.Chat.ChatClient.Disconnect]; B[Photon.Chat.Demo.ChatGui.OnDestroy] --> C;
```

The diagram illustrates two event listeners on the left, each enclosed in a white box with a black border. The top box contains the text 'Photon.Chat.Demo.ChatGui.OnApplicationQuit' and the bottom box contains 'Photon.Chat.Demo.ChatGui.OnDestroy'. Two blue arrows originate from the right side of these boxes and point towards a single gray box on the right. This gray box, which also has a black border, contains the text 'Photon.Chat.ChatClient.Disconnect'. The arrows indicate that both 'OnApplicationQuit' and 'OnDestroy' events trigger the 'Disconnect' method of the 'Photon.Chat.ChatClient'.
